**ARIZONA, NEW MEXICO AND WEST TEXAS** (via: Phoenix, Arizona)

Deliveries by growers to delivery points of Improved varieties were moderate. Demand was fairly good for good quality pecans. Harvesting is expected to remain fairly steady, and is expected to continue through most of the month or into the first part of February. Harvested quality has been generally good.

The weather forecast for the next week calls for low temperatures in the mid-20s to mid-30s, with highs in the mid-50s to upper 60s. There is no precipitation projected for the next week.

Buying interest displayed by end users was moderate for in-shell, gift pack use, and moderate for commercial sheller use as shellers continue to utilize inventories on hand or make purchases from other production areas or wait for additional availability of nuts. Trading was moderate for in-shell and gift pack uses. Deliveries and purchases of Improved varieties mostly Western Schley were moderate. Many growers are deferring making marketing decisions, opting instead to concentrate on harvesting and storing nuts for later sale.
