OKLAHOMA (via: Oklahoma Department of Agriculture Market News Service)

Deliveries by growers to buying points were moderate in south central Oklahoma, and light in east and northeast counties. Heavy rainfall in December stopped harvest for some time and some growers lost a good portion of their crop to flooding. Buyers are becoming increasingly cautious toward quality and condition as both quality and meat yields are varying widely.

The weather forecast this week calling for highs in the low 50s early but dropping to the mid-30s by week's end. Lows are forecast in the mid to upper 20s.

Demand very good for seedlings in good condition. Retail and gift box demand diminished as supplies of improved varieties largely finished.

Prices paid to growers (noon Thursday, December 17, 2015 to noon Thursday January 7, 2016) at buyers delivery points or F.O.B. the orchard including direct sales to end users, cents per pound, in-shell of generally good quality in lots of 20,000 pounds or less unless otherwise stated.

Natives/Seedlings (deliveries moderate) yard tree lots 35-38% meat yield 80-100, few lots over 500 lbs 120-130. Truckload lots 38-40% meat yield 145-175.
