## PRICES PAID TO GROWERS

GEORGIA (via: Forest Park-Atlanta GA)

Growers are preparing the orchards for harvesting. Light sales and deliveries this week but it is expected to increase as more varieties will be showing up on the market. Most of the lots were of the Pawnee variety and some Moneymakers, Oconee and Stuarts are coming in this week. The retail and gift shop business is expected to get into the mix soon, looking for high quality pecans for trading and for the upcoming holiday seasons. The weather has been warm to mild with plenty of excitement from another hurricane passing through and several tornado warnings along with plenty of rain but not heavy winds unlike previously from earlier storms.

Prices remain very strong, and some growers are taking their time to clean up the pecans before delivery to get a better price off the farms. Buyers for the export trade business are scouring the country at this time and trying to get pecans contracted out for the year, with some growers waiting to sell and see if the interest will increase prices being offered. Accumulators and shellers are open this week and business is slow but gradually picking up at the door.

Prices paid to growers (late afternoon October 3, through late afternoon October 10, 2017 ) at buyers delivery point or F.O.B. the orchard including direct sales to end users, cents per pound in-shell of generally good quality in lots of 20,000 pounds or less unless otherwise stated.

- Desirables** (deliveries very light) yard tree lots 150 occasional higher
- Moneymakers** (deliveries very light) yard tree lots 100-125 mostly 115
