PRICES PAID TO GROWERS

GEORGIA (via: Forest Park-Atlanta GA)

The growers are still checking orchards and damages for last weekend's storms that hit the Eastern part of the state and thousands of more trees mostly in the Statesboro area in central eastern Georgia may have been toppled over or split. Weather conditions call for mostly mild temps with daytime highs in the low to mid 80s and evening lows in the low 50s in most areas for the rest of the week.

Buyers are ready to open their doors for open trading including yard tree sales this weekend. Prices have been established for the door sales with a fairly wide range in price offered depending upon quality and moisture content. Some small lots are coming in with moisture at eight percent or higher and being docked at the door. Very light sales of Pawnee were reported with some under contract. Moneymakers and Stuarts are getting ready for harvest and should be ready for market in the next week.

Prices paid to growers (October 4 through October 11, 2016) at buyers delivery point or F.O.B. the orchard including direct sales to end users, cents per pound in-shell of generally good quality in lots of 20,000 pounds or less unless otherwise stated.

Moneymaker (deliveries very light) yard tree lots 100-120

Pawnee (deliveries very light) 56-58% meat yield (48-54 count) 315-324, 56-58% meat yield (60-70 count) 269-290

Seedlings (deliveries very light) yard tree lots 80-100 mostly 90

Stuart (deliveries very light) yard tree lots 170-175 fair quality 125-130

THE NEXT GEORGIA REPORT IS SCHEDULED TO BE RELEASED ON TUESDAY, OCTOBER 18, 2016.
