## PRICES PAID TO GROWERS

GEORGIA (via: Forest Park-Atlanta GA)

The season is getting a slower start than earlier anticipated. Growers are still cleaning up the orchards and harvesting pecans as they can. Some are cleaning out as much as thirty percent waste and debris along with pecans hit with black rot and scab and are preparing them for sale later in the week or next week.

Prices remain very strong, about steady from previous reports and demand is very good. Contracts are now being signed and some export buyers are out in the fields contacting growers directly to secure top quality larger sized pecans for resale and the big Asian holiday (Chinese New Year) coming up later.

Weather this week has been mild to warm. The forecast until next Tuesday shows evening temps in the low to high 60s and daytime highs in the low 80s to high 80s throughout most of the state.

Prices paid to growers (late afternoon October 10, through late afternoon October 12, 2017) at buyers delivery point or F.O.B. the orchard including direct

sales to end users, cents per pound in-shell of generally good quality in lots of 20,000 pounds or less unless otherwise stated.
