GEORGIA (via: Forest Park-Atlanta GA)

The weather for this week shows freeze warning early in the week today and possibility of rain on Thursday or Friday. The rest of the week shows evening temps in the low to mid 40s and daytime highs in the mid-50s to low 60s. The north areas show about a five degree difference in colder temperatures.

The retail and holiday gift markets are steady and demand is strong, while the commercial/domestic market has softened and some domestic buyers are waiting to see if the price will continue to decline before committing to purchase samples offered.

Currently growers are picking up the remaining pecans on the ground and are getting ready for a second and final sweep of the orchards before finishing up the season which appears to be shorter than in normal years. In some areas Stuarts are not as plentiful as expected and many trees are light with pecans especially in dryland/unirrigated orchards.
