PRICES PAID TO GROWERS

ARIZONA, NEW MEXICO AND WEST TEXAS (via: Forest Park-Atlanta GA)

In Central Arizona cool days in the low 60s and going up and down into the 40s-50s and back up to 70 for Saturday. Rain on Sunday and back to the mid-60s for Monday and Tuesday. Central New Mexico will have wind up to 40 mph today and 80 percent light rain with possible snow overnight. Days start with the high 30s and warming to mid to high 50s for the rest of the week. Freezing evening temps for the week with mostly cloudy days. In West Texas mild daytime temps starting in the low 70s, cooling for Thursday to the low 50s and back to high 70s for Monday and Tuesday. No rain in the forecast.

With a short crop and lower yields this year, many growers are selling retail online and through gift shops from home. Growers are finished with harvest and pecans that are not staying in cold storage are being sold now. The pecans in cold storage will be sold in late Spring or during the summer when buyers need to fill orders and the growers hopefully get the price they want. Prices are about steady. Blends of Western Schley with 54% meat yields or better sold in a range of about \$3.10-3.15 per point. Blends of Fair quality Western Schley pecans with 48% meat yields or better sold for about \$2.85 per point. An estimate of about fifteen million pounds will remain in cold storage out of the Western region.

Prices paid to growers (from late afternoon Tuesday, February 7, 2023 through late afternoon Tuesday, February 14, 2023) at buyers delivery point or F.O.B. the orchard including direct sales to end users, cents per pound in-shell of generally good quality pecans in lots of 20,000 pounds and truckloads or less unless otherwise stated.

Western Schley (deliveries light) 54-58% meat yield 167-182

THIS IS THE LAST WESTERN REGION PECAN REPORT OF THE SEASON. THE NEXT WESTERN REGION REPORT IS SCHEDULED TO BE RELEASED IN LATE SEPTEMBER OR EARLY OCTOBER 2023.
